

Classical Selections by Library Bureau is an exciting and innovative design approach to library and media center furnishings. Interchangeable design elements are the hallmark of Classical Selections. Create furniture as unique as your environment by combining various top edge treatments, leg details and rack designs. For an overview of the Classical Selections design components, see page four.

Your furniture can be constructed in red oak or maple. Standard and custom wood finishes or textured paints are available. Select work surfaces made from wood veneer or plastic laminate.

Library Bureau offers furniture in a full range of sizes and shapes to meet space and function requirements. State-of-the-art wire management, power, data, communications and lighting accessories are available.

As with all Library Bureau products, our more than 100 years of experience and craftsmanship assure quality, durability and value.

Create table style carrels by adding a Classical Selections rack to your table. The end panel of this rack features a rounded top profile.

Table style carrels may be either single or double faced in a variety of sizes to accommodate specific requirements. Wire management, power, data, communication and lighting accessories are available for all carrels. Work surfaces may be either plastic laminate or wood veneer.

The bullnose profile of the external edge band of Classical Selections complements the chamfered leg treatment. Classical Selections edge profiles are available on the full range of furniture pieces, including charging desk units, computer carrels, and technical furniture.

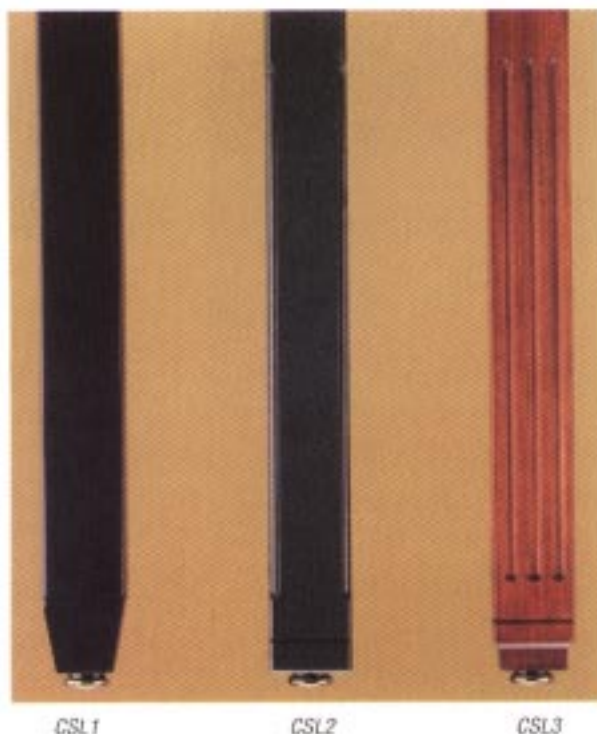

Tables are available in a complement of shapes and sizes. Any of the three leg styles can be specified. Select from various leg heights to accommodate the needs of your patrons. Wood finishes or textured paints can be specified for legs. Choose plastic laminate or wood veneer tops in a wide variety of finishes to complete your design.

The elements in Classical Selections are interchangeable. Specify any combination of tops, legs and racks. Select from a variety of wood, paint, laminate and finish options. There is a wealth of possibilities with Classical Selections.

Classical Selections offers three distinct tops: Square Edge (CST1), Bullnose Edge (CST2), or Beveled Edge (CST3).

Leg shapes include: Tapered (CSL1), Chamfered (CSL2), and Fluted (CSL3). Legs come in a variety of heights, with textured paint surface in any of six standard colors, or a selection of wood finishes.

Racks for table style carrels are also available in three styles: Squared (CSR1), Radlused (CSR2), and Fluted (CSR3).
