

LB LIBRARY BUREAU
A ModuForm Company

Library Bureau is about flexibility... about innovative furniture designs that manage your space requirements... about sound engineering that endures active environments for extended life... about choices that accommodate. Library Bureau—flexibility in furniture.

The Standard For Bold Design

And Innovative Engineering

Since 1876, Library Bureau has built a reputation as the first name in library furniture: tables, study carrels, technical furniture, circulation desks, viewing stations, shelving, and more.

Visions is as elegant and contemporary in function as in form. This line is distinctive in its striking contours—bold, two-tone curved end panels that afford unobtrusive patron privacy. Adjustable work heights are 32mm construction. The modular unit design can be grouped in many configurations. A full range of furniture sizes, shapes, options and accessories are available. Visions affords the maximum flexibility to meet function and space requirements.

Constructed of solid red oak or maple wood, a broad spectrum of warm wood finishes customize or match your unique environment. Furniture is protected with an ultra-violet cured resin finish that is deep, rich and luxurious and extremely durable. Laminate top selections further customize furniture to match wood finishes or complement with patterns and colors. State of the art wire management, power, data, communication and lighting accessories meet technical requirements.

Library Bureau—setting the standard for bold and beautiful design and innovative engineering to meet the expanding needs of today's libraries...college, university, K-12, public, private, reference, law, and media centers.
